

The Ultimate Value is Performance

Supaprint FS-80

Premium Quality, New Generation Sheet fed blanket

■ Excellent Print Quality and Extended Life

The FS-80 was developed with Fujikura's advanced technology in surface compounds and carcass construction to ensure the highest level of print quality possible on today's modern high speed sheet fed presses and "long" perfectors.

Specifications		Cross Section
Type	Compressible	
Thickness	.067, .077	
Color	Blue	
Hardness	82 (Shore A)	

■ Features

- Outstanding dot and solid reproduction
- Superior ink transfer and sheet release
- Minimum dot gain
- Reduces the down-stream fan-out that can occur on some of today's high speed 8, 10 & 12 color perfectors
- Unique "instant recovery" compressible layer
- Reduced piling and easy cleaning
- High resistance to both mineral and soy oil based inks
- Ideal for Toray and Presstek waterless plates
- Reliability you can trust
