

Endura

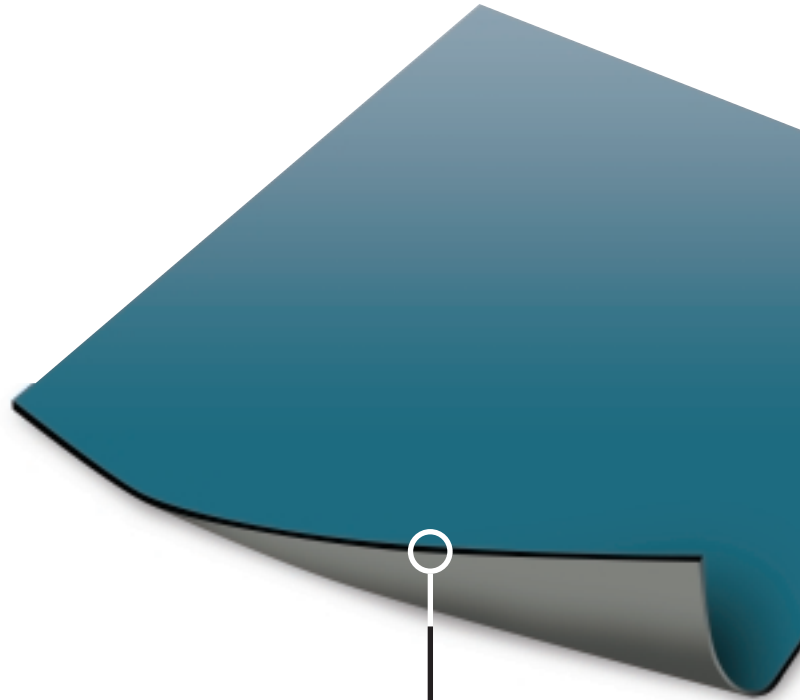

Offset Blankets

Strength And Versatility For Multiple Applications

MacDermid Endura blankets are designed specifically for printers that need their blankets to handle a variety of offset printing applications.

Our **Endura** printing blankets are built on a compressible carcass with stretch, smash and solvent resistance. MacDermid Endura blankets are able to work on a variety of stocks, and the buffed rubber surface reduces piling, resulting in cleaner press runs and quick and easy wash-up.

For an offset printing blanket that handles a variety of applications, count on the company that says "Yes We Can." MacDermid.

Key Features

- Prints dense solids and clean halftones
- Excellent rebounding for longer use
- Maintains proper blanket height without overpacking or repacking
