Achieve Exceptional Smoothness From Our Proprietary Surface Technology

MacDermid Highlight coating blankets are designed specifically for printers that require exceptional transfer of aqueous coatings.

Our **Highlight** blankets are constructed of a compressible carcass and topped with a proprietary pre-cured polymer surface that allows for super sharp cutting and incredibly deep relief, creating the highest quality coating blanket for you and your customers.

For superior transfer of aqueous coatings, count on the company that says "Yes We Can." MacDermid.

Key Features

- Smoother surface yields better transfer and higher gloss
- Cuts cleanly so edges are sharp and crisp
- More relief means less buildup and fewer wash-ups
- Available with fabric or adhesive backing

Technical Specifications

General

Applications:	Aqueous coatings
Color:	Green
Blanket construction:	Compressible
Surface:	Precured polymer
Hardness:	74 Shore A

Gauge Specifications

3-ply:	0.067 in. +/- 0.00075 in. (1.70 mm +/- 0.019 mm)
4-ply:	0.077 in. +/- 0.00075 in. (1.96 mm +/- 0.019 mm)

Within a typical 40" blanket, gauge variation is +/- 0.0005 in. (+/- 0.013 mm)

YES WE CANSM

It takes more than innovative, high performance products and superior technical service to help our customers compete and win in today's global marketplace. It takes a total commitment to understanding their needs and the ability to provide the right solutions—every time.

When success is your only goal, trust the company that says "Yes We Can."
