

PC Resil

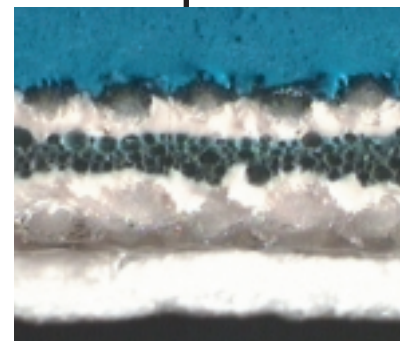

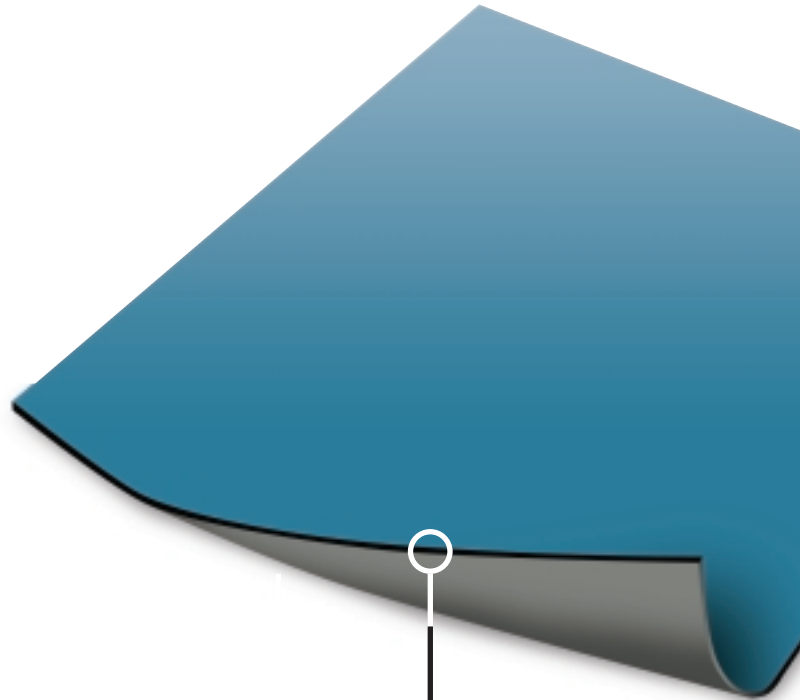

Offset Blankets

The Optimal Blanket For Transfer Of Aqueous And UV Coatings

MacDermid **PC Resil** coating blankets offer printers excellent transfer of aqueous and UV coatings while allowing full depth stripping for clean reliable cutouts by hand or CAD systems.

Our **PC Resil** blankets are adhesive-backed, topped with a finely buffed surface for high quality coatings. MacDermid PC Resil coating blankets are built of a strong, fabric-based compressible carcass that has consistently proven itself in the field. The bi-directional mounting ability of the MacDermid PC Resil further demonstrates that these blankets are the most flexible option available for your printing applications.

For tough, flexible blankets to meet a variety of coating needs, count on the company that says "Yes We Can." MacDermid.

Key Features

- Bi-directional mounting for convenience
- Compatible with standard blanket washes
- Tough, field proven performance
