### Printing Blankets Exclusively Designed For UV Inks And Washes

MacDermid PFUV printing blankets have been created exclusively for printers that require exceptional resistance to UV inks and washes.

Our PFUV blankets are built on a compressible, fabric over foam carcass with a consistent compressible layer for superior print quality and smash resistance. Constructed with a micro-finished rubber surface, MacDermid PFUV printing blankets provide exceptional ink transfer and release, making it the best solution for your UV ink and wash needs.

For printing blankets designed exclusively for UV inks and washes, count on the company that says "Yes We Can." MacDermid.
