Fabric And Adhesive Backed Blankets With A Blue Strip Zone For Deep Relief And Easy Stripping

MacDermid RC Series is a specially designed family of coating blankets that features a unique blue strip zone to provide printers with deep relief and easy stripping. Available with a fabric or adhesive back, each blanket provides a 78 Shore A hardness and is an excellent choice for aqueous and UV coatings.

The **RC Series** is comprised of the fabric backed *RC3* and *RC4*, and adhesive backed *RC370* and *RC470*. Both provide a buffed surface, easily stripped top fabric and a compressible layer on a strong, low stretch compressible carcass. Designed to allow for clean, reliable cutouts by hand or CAD system, all deliver high relief down to the unique blue strip zone.

For innovative coating blankets that meet your specific needs, count on the company that says "Yes We Can." MacDermid.
