

XT555

Offset Blankets

Durability And Performance That Extends To Stochastic And Waterless Printing

MacDermid XT555 is one of the most durable printing blankets available today, offering printers the ability to handle stochastic and waterless printing.

The **XT555** blanket is built on a compressible foam carcass, topped with a buffed rubber surface, that provides high definition screen values across a wide variety of paper weights and stocks. Chemically formulated for exceptional ink transfer, MacDermid XT555 blankets function well in alcohol-free pressrooms and are compatible with most UV inks, making them the trusted choice for printers worldwide.

For performance blankets that can handle stochastic and waterless printing, count on the company that says "Yes We Can." MacDermid.

Key Features

- Chemically formulated to provide smooth ink transfer
- Prints cleanly on all types and weights of stocks
- Buffed surface to optimize release
- Holds up at the gap for full bleed work
- Provides optimally stable registration on web presses
- Offers longer blanket life with fewer blanket changes

Technical Specifications

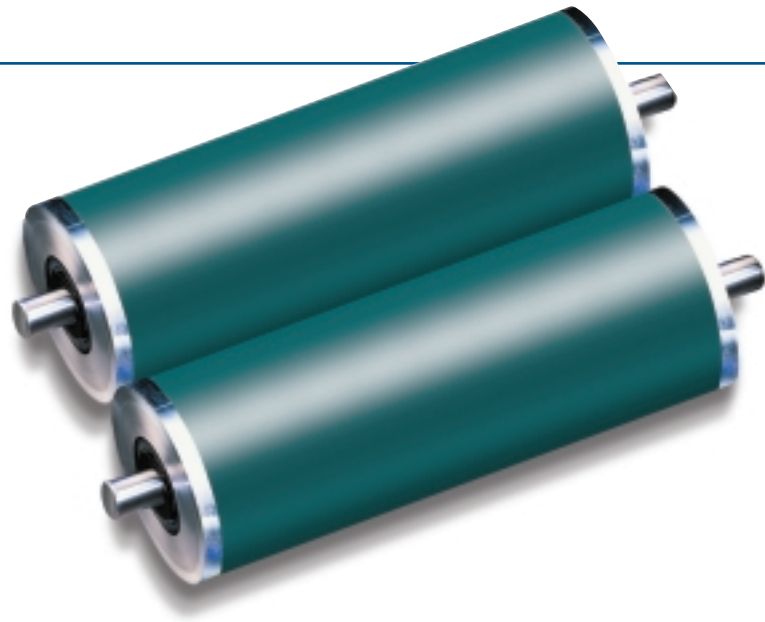

General

Applications:	Sheetfed and web
Ink:	Conventional, UV
Color:	Dark Green
Blanket construction:	Compressible fabric over foam
Surface:	Buffed and polished
Hardness:	77 Shore A

Gauge Specifications

3-ply:	0.067 in. +/- 0.00075 in. (1.70 mm +/- 0.019 mm)
4-ply:	0.077 in. +/- 0.00075 in. (1.96 mm +/- 0.019 mm)

Within a typical 40" blanket, gauge variation is +/- 0.0005 in. (+/- 0.013 mm)

YES WE CANSM

It takes more than innovative, high performance products and superior technical service to help our customers compete and win in today's global marketplace. It takes a total commitment to understanding their needs and the ability to provide the right solutions—every time.

When success is your only goal, trust the company that says "Yes We Can."
