

XT850

MacDermid Printing Blankets

Designed To Reduce Piling in the Modern Pressroom

The MacDermid XT850 features a unique buffed rubber surface that has an exceptional affinity for water—reducing piling and makes cleanup easier. Built on a resilient, compressible, fabric over foam carcass, the XT850 provides consistent high print quality over a long stable life on any type of web press, whether its high-speed, narrow gap, double wide, one around or two around. XT850, an excellent choice for the discriminating sheetfed printer.

Key Features:

- Allows one blanket to be changed without affecting registration
- Consistent print quality in high-speed web applications
- Optimized ink transfer
- Sink and stretch resistance
- Significantly reduced piling
- Faster cleanup

Properties:

Application: High-speed web, sheetfed

Ink: Conventional

Color: Bright blue

Blanket Construction: Compressible

Surface: Buffed

Hardness: 76 Shore A

XT850 Gauge Specifications:
