

# Vulcan<sup>®</sup> 914<sup>™</sup> 5 Ply

The Duplicator  
Blanket That  
Can't Be Copied!

**REEVES.**  
BROTHERS, INC.

# VULCAN<sup>®</sup> 914<sup>™</sup> 5 PLY

Engineered. Not Just Manufactured.

## Construction Features

Specially Blended Top Compound  
Low-Compression-Set, Gauge-Retentive,  
Ply-Up Rubber  
Combination of Low-Compression-Set Compounds,  
New Fabrics, and Fine Face Finish  
Buffed Face Compound

## Performance Features

Greater Resistance Against Swelling and Embossing  
Maintains Required Print Height  
Better Smash Resistance

## Benefits

Extra tough to resist cutting. Washes up easily.  
Bonds fabric layers to each other permanently.  
Reduces gauge loss and blanket stretch. Resists  
smashes, plus creates a firmer blanket for better  
dot reproduction.  
Facilitates sheet release.

## Benefits

Promotes longer blanket life and less downtime.  
Allows better print quality.  
Assures longer blanket life.
